

EST STUDIO STAND

The EST stands are of solid metal construction with a square column and a heavy star-shaped base. The single or double camera-arm is counter-balanced for smooth rise and fall movements; heavier counterweights are available. The base is fitted with three swivel castors and three blocking devices for maximum stability. The EST is available in 7ft/210cm and 9ft/270cm heights.

The CAMBO compact studio stand designed for cameras up to 4x5"/9x12cm.
